### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kevin McKinley on December 14, 2006.

The application has been amended as follows:

In claim 1, line 14 the following changes have been agreed to:

surface of the adapter [[fixing member]] to secure the adapter [[with]] between the adapter support member

2. This application is in condition for allowance except for the presence of claims 21-23 directed to an invention non-elected without traverse. Accordingly, claims 21-23 been cancelled with approval of applicants' representative.

3. The following is an examiner's statement of reasons for allowance:

The prior art, specifically Morton et. al. (USPN 929,154), teaches a label attacher with an adapter (11), adapter support member (3), and an adapter fixing member (14) wherein the fixing member is formed around a circumference of the adapter, configured to fix the adapter together with the adapter support member, wherein the outer surface of the adapter support member has a plurality of recessed and projected portions. The

prior art however fails to teach an adapter support member wherein the projected portions contact the inside surface of the adapter to secure the adapter between the adapter support member and the adapter fixing member in combination with the other limitations of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
